Language Usage practice booklet: Grade 6 expectations

Grade 6 · Practice booklet

Name: _____

What this booklet is

This is general practice written for Language Usage at Grade 6 level, following the Common Core State Standards for English Language Arts standards for that grade. It is not made from your child's MAP questions, and it does not replace the classroom. Use it as a guide to what a child is expected to know and do at this level.

How to use it

- Do one section at a time, about 10 minutes, 3 days a week. Stop while it is still enjoyable.
- Read each question all the way through, twice, before answering. Underline the key words and say what is being asked.
- Take your time. A careful, correct answer is worth more than a fast one.
- Use scrap paper and show the working. Then check the answer before moving on.
- Ask your child to explain how they got an answer, even when it is right.
- If a section feels too hard, do the section before it again, or ask the teacher. That is part of learning, not a problem.

Draft: to be checked by a teacher before use.

Section 1: Capital letters, punctuation and spelling

Standards practised: L.6.2, L.6.2a, L.6.2b

Add commas: Salem's uncle who works at the port brought back a model dhow.

1. Find the extra information: who works at the port. It adds a detail but is not needed to know which uncle.

Answer guide for parents

Section 1: Capital letters, punctuation and spelling

1. Maryam, who lives in Al Ain, won the spelling contest. (the phrase adds extra information, so it is set off by a pair of commas)
2. Khalid's grandfather, a retired fisherman, tells wonderful stories. (a phrase that renames a noun and is not essential is set off by commas)
3. The souq, I think, opens at nine. (a short aside inside a sentence is set off by commas)
4. (b). The words who finished early are needed to tell which students helped, so no commas are used. In (a) the commas would suggest that all the students finished early.
5. The Hope Probe, which was built in the UAE, reached Mars in 2021. (the phrase gives extra information about a probe we already know)
6. definitely
7. separate (remember: there is 'a rat' in separate)
8. except (it means 'but not'; accept means 'to receive or agree to')
9. necessary (one c and two s's)
10. "Why is the sky so red tonight?" asked Noura. (the question mark stays inside the quotation marks, and asked is not capitalised)
11. The children's books were stacked on the teacher's desk. (children is already plural, so 's is added; teacher is one person, so 's is added)
12. In (a) the speaker has one sister, and the phrase only gives extra information. In (b) the phrase tells which sister is meant, which suggests there is more than one sister.

Section 2: Grammar and word usage

1. I (the pronoun is part of the subject; test it alone: I built the model rocket)
2. her (the pronoun is the object of 'to'; test it alone: gave the certificates to her)
3. herself (an intensive pronoun adds emphasis; 'hisself' is not standard English)
4. their (two people are the antecedent, so the pronoun must be plural)
5. When you visit the desert, you should bring plenty of water. (the sentence began with 'you', so it should stay with 'you')
6. Maryam picked a palm leaf and put it in her bag. (one leaf needs the singular pronoun it)
7. A good answer removes the doubt about who 'he' is. Model: Salem told Khalid, "You have won the prize." or Salem told Khalid that Salem had won the prize.
8. The two boys were waiting at the metro station. (a plural subject needs the plural verb were)
9. Model: The market near the creek opens at dawn, when fishermen bring in their catch. (any single, correct sentence that keeps all three ideas is fine)
10. (b). It uses polite, complete wording with no slang or chatty phrases.
11. Although the Hajar mountains are hot in summer, many people hike there in winter. (a comma follows the opening clause)
12. Myself is a reflexive or intensive pronoun and cannot be used as an ordinary object. Correct: Please give the book to Hind or me.

Section 3: Writing

1. (b). It gives an opinion that people could agree or disagree with. (a) and (c) are facts.
2. (b). It gives a reason that directly supports the claim. (a) and (c) do not.
3. A good answer is one clear sentence that states a position. Model: Our school should lengthen the lunch break so that students have time to eat and rest.
4. 2, 3, 4, 1 (claim first, then the evidence, then a closing sentence; sentence 4 says 'This extra power', so it follows sentence 3)
5. A good answer keeps a position but uses formal, respectful wording and a reason. Model: Homework is not always helpful because some tasks take time without teaching anything new.
6. Therefore (the second sentence is a result of the first)
7. (b). It names the topic and tells the reader what the paragraph will explain.
8. A good answer follows from the information and does not add a new fact. Model: Date palms are well suited to desert life and have long been valuable to people.
9. A good answer adds what Omar saw, smelled, heard or felt. Model: Omar stepped into the spice shop, where the warm smell of cardamom and cinnamon filled the air.
10. exposition, rising action, climax, resolution (introduce the characters and setting, build the problem, reach the turning point, then solve it)
11. Model: The huge crowd filled the stadium. (big, huge and large all say the same thing, so one strong word is enough)
12. A good answer has a clear claim, two different reasons each backed by a fact or example, formal wording, and a closing sentence that follows from them. Model claim: Students in our grade should visit a desert reserve each year because they can see wildlife up close and learn how people protect it. Answers will vary.
